

# How to Play Pickleball

The ball is **served diagonally**, across court, beginning with the player on the right.

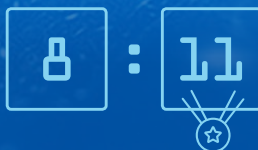

The serving player continues to serve until they or their team faults, and **points are only awarded to the team serving.**

**A double bounce rule** applies the serve and first return shot.

Both the player receiving the serve and the server's side must **allow the ball to bounce before hitting it.**

**The game is played to eleven points**, and players must win by two points to complete the game.

**The kitchen is a non-volley zone**, and volleys are only allowed after the first two returns are played.
